

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PREFACE

TO THE FIRST EDITION.

---

THE idea of publishing the Register of Harrow School originated with my colleagues, Mr. E. W. Howson and Mr. E. Graham, and has been carried out by Mr. R. Courtenay Welch. It has not been free from difficulty, for the Admission Book before the time of Dr. Longley has been lost for many years, and it is only since the beginning of Dr. Vaughan's Head Mastership that the record of boys admitted to the School can be said to be complete in all its details. The result is that, although an attempt has been made to carry the Register back to the first year of the present century, there are naturally a good many gaps in it; but it is hoped that the publication of a tentative first edition will be the best way of leading to a second edition, which will be largely improved and extended. At all events, the thanks of Harrovians past and present are due to Mr. Welch, and to other friends of the School who have worked with him. The Register will in future be reissued at stated intervals of time, and it will be kept as far as possible up to date in the information which it supplies.

## PREFACE

### TO THE SECOND EDITION.

---

**S**EVEN years have now elapsed since the publication of the first edition of the Register, and the time has now come when it seems necessary to bring the book up to the present date. The second edition will be found in many ways improved. In a first edition, which was largely tentative in character, many little mistakes and omissions were inevitable. It is hoped that the unselfish energy of many old Harrovians has removed the mistakes and supplied the omissions. The thanks of all Harrovians are due to Mr. Daughlish and to Mr. Graham for their unwearied efforts to make the Register as accurate and complete as it now is.

It is proposed to issue a new edition in the first year of every decade, and it will very greatly assist the Editor if all communications from time to time be addressed direct to

## NOTE BY THE EDITOR.

---

IN the spring of 1891 Mr. R. Courtenay Welch was entrusted by a Committee of the Masters of the School with the compilation of a Harrow School Register from the year 1801. In his editorial note to the first edition, Mr. Welch thus explains the difficulties of his task:—"The number of names to be dealt with was estimated at about 6,000, and little more was proposed than a reprint of the Entrance Books, with the addition of such particulars as could be derived from the various School Records, or obtained from living Harrovians and from the friends of those who had passed away. As the work advanced, however, it was found that the number of entries exceeded 10,000, while the difficulty of preparing the list was very greatly increased by the imperfections of the earlier records. Dr. Drury's Entrance Book gave only the surnames. The Entrance Book covering the period of Dr. George Butler's Head Mastership has long since disappeared, and the lists between the years 1805 and 1829 have been compiled . . . from the few Bill Books which are still extant. Dr. Longley's entries are more complete, the Christian names being given in full, the House Master mentioned, and short notes often added, which have proved most valuable in tracing the names. Dr. Wordsworth gave further particulars, the address and, in some cases, the father's name being mentioned. But there is reason to believe that in all these earlier lists the names were often entered before their owners actually joined the School, and this seems especially to have been the case when two or more brothers, of very different ages, were entered together. Many names too have, undoubtedly, been altogether omitted. . . . From Dr. Vaughan's time the lists contain, in most cases, all the information necessary for such a work as the present, though it has not always been easy to determine whether the name of the father or guardian is given."

These difficulties led to a considerable delay in the publication of the book, which ultimately appeared in the summer of 1894. The success of the Register and the interest it aroused fully came up to

the expectations of all concerned, and has naturally resulted in the acquirement of much additional information as to old Harrovians.

Unfortunately the missing Entry Book of 1805-1829 has not been traced, and is probably now irrevocably lost. But several more Bill Books of those years have been kindly lent to me, and the publication by Mr. Bushell in the *Harrovian* of the names cut up in the Fourth Form Room has enabled me to fill up many gaps. At least 100 fresh names have been collected from these and other sources.

It is felt that the time has now fully come for the appearance of a new and revised edition, incorporating all this extra matter and bringing the Register generally up to date. The present Editor, who took up the work when the pressure of other duties compelled Mr. Welch's retirement, can only say that he has done his best (he hopes not unsuccessfully) to remedy the necessary imperfections of the former issue.

At the beginning of the book will be found a list of the School as it stood in October 1800, thus enabling me to include (subject to the necessary reservations) the name of every boy who was at Harrow during the nineteenth century. For this list I am indebted to the kindness of the Misses Oxenham, daughters of the well-known Harrow Master.

One word as to omissions. The seven years which have elapsed since 1893 necessitate the insertion of the names of more than 1,000 boys who have since entered the School. To keep the book within reasonable compass, certain appendices previously given are omitted. These can all be found in the annual Harrow Almanacks. In their place will be found a list of the consecution of the Boarding Houses since 1800, which I trust may prove of interest.

To all who have helped me, and especially to the Masters of the School, I return my sincerest thanks. Their names are too numerous to mention; but I cannot pass over that of Mr. Graham, whose help and sympathy have been invaluable.

I am not without hope that in the future we may carry our researches further back, so as to include the names of Harrow boys previous to 1800.

M. G. DAUGLISH.
